I-89 Lamoille River Bridges – Final Paving Operations and Potential Traffic Impacts

May 25, 2017 – Press Release

Milton, VT – Tetra Tech Construction is currently performing final paving operations for I-89 Northbound North and South of the Lamoille River Bridge. To facilitate this work, daily Northbound lane closures will be installed from 6AM to 4PM and 24 hour extended NB lane closures will be installed as required to facilitate these operations. These extended lane closures are anticipated from 5/31/17 to 6/7/17. Northbound evening commuter traffic may be heavily impacted and could cause delays.

Southbound lane closures will be installed from 9:00AM to 5PM

The Project Team asks the travelling public to help keep workers safe by reducing speeds through the active work zone and to stay alert for changing conditions. Additional speed enforcement will be present in the construction zone, and drivers are to be reminded that it is now against the law to use a hand held cell phone in construction work zones.

Information about the project and traffic impacts can be found on the project website:
